EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1 – 4 and 8 – 10 are CANCEL.

Allowable Subject Matter

2. Claims 5 – 7 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. As for claim 5, the prior art of record do not anticipate or render obvious to one skilled in the art a method of manufacturing micro lenses comprising an underlayer film etching step, a lens film laminating step and an etching step for forming concave regions in the lens film over the convex regions wherein the lens film has a refractive index higher than that of a substance provided in a layer above the lens film.

Specifically the limitation of "the etching step for forming concave regions in the lens film over the convex regions by applying a resist over the lens film to flatten the surface of the lens film and applying an etching process under a condition that the lens film is more easily etched than the resist, wherein the lens film has a refractive index higher than that of a substance provided in a layer above the lens film" as presented in Figs. 10 – 12 of the application.
5. The closest reference, Sano et al US 6,030,852, discloses a method of manufacturing a micro lenses comprising every step as claimed including the use of a resist over the lens film for the etching step. However, the reference alone or in combination with any other prior art references fails to teach or suggest the resist over the lens film to flatten the surface of the lens film and applying an etching process under a condition that the lens film is more easily etched than the resist.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
